

Don't switch off. Switch now.

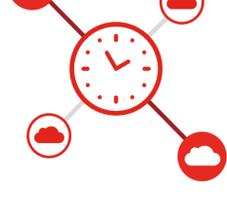

By 2025, all ISDN services
will switch off

Decommissioning to start in 2020

An opportunity. Not a threat.

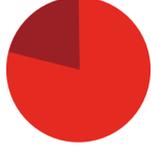

Make this the incentive you need to upgrade
now – as countless businesses are already doing.

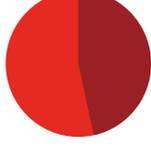

It's time:

Consider Cloud Communications

- Better Communications
- Less capex
- Lower costs

80% of IT professionals deploy cloud communications to gain access to advanced features and capabilities.1

43% of IT professionals indicate that cloud-based or hosted services will be important for future business

The new reality? Cloud communications

The Business Cloud Communications market has grown by 300,231 users (11.10%) (over last 6 months) to break 3m users for the first time.

Adding 300k users in this period, is the fastest 6 months growth we have witnessed since starting the survey, the growth was particularly driven by some of the larger providers.

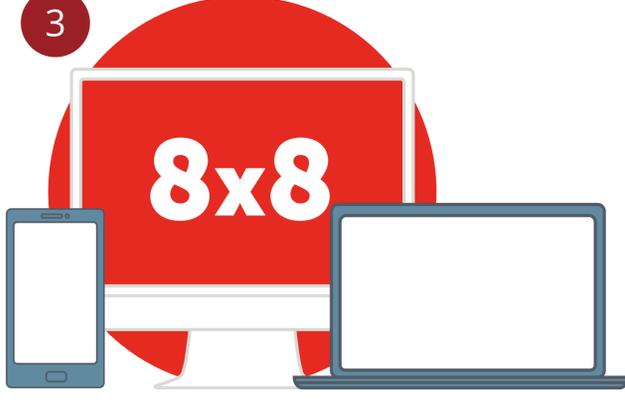

5 Reasons to Consider Cloud Communications

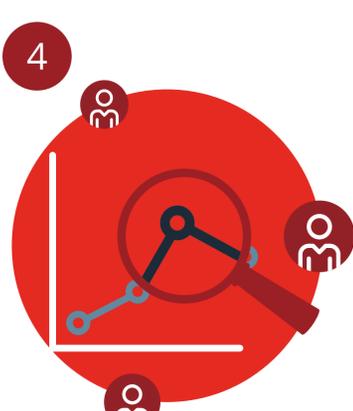

1 Eliminate multiple vendors

2 Easily scale communications as your business grows

3 Easily adapt your business communications to suit your needs

4 Gain actionable insights from your communications activity

5 Maintain communication during unexpected disasters
