8x8 Voice + Microsoft Teams

The right time. The right approach.

[Read eBook](#)

CIOs and IT managers can now remove the burden and complexity of managing an on-premise, enterprise telephony infrastructure, and deliver a single, global cloud voice solution across multiple countries and locations directly for Microsoft Teams.

8x8 Voice for Teams completely changes that paradigm.

8x8 Voice for Teams enhances Microsoft Teams with unmatched enterprise communications capabilities within a native Teams experience on any Microsoft Teams endpoint.

IT leaders can guarantee the best communications experience with Microsoft Teams that is scalable, reliable, and designed to exceed even the most demanding users' needs.
